Weather Report & Forecast

SATELLITE-BASED GLANCE INTO TODAY, MONDAY 16 NOVEMBER 2026

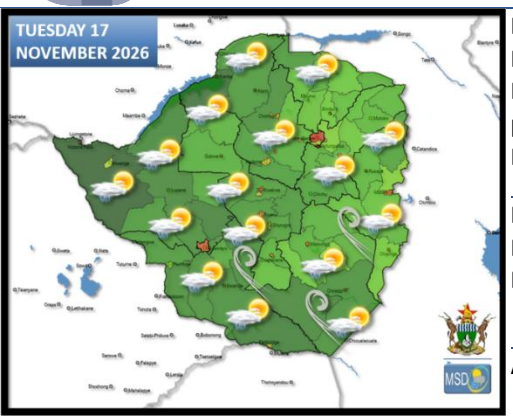

Isolated thunderstorms occurred over much the northern parts of the country yesterday, due to a cloud band from Botswana. The highest rainfall amounts were recorded at **Chakari Mine, Kadoma (44mm)** and **Makuti (15mm).**

This morning, mild conditions prevailed in all areas with scattered clouds over the much of the western half of the country. As the day progressed it became hot with isolated thunderstorms in some places.

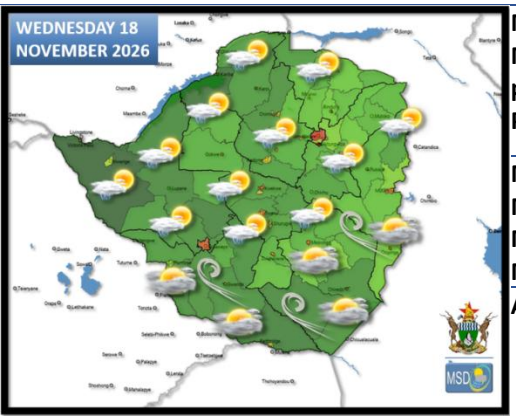

FORECAST FOR TOMORROW: TUESDAY 17 NOVEMBER 2026

Matabeleland North, Bulawayo Metropolitan, Northern parts of the Midlands, Harare Metropolitan, Northern parts of Manicaland and all Mashonaland Provinces:	Mild conditions under partly cloudy skies at first becoming mostly cloudy and warm by the afternoon, Scattered thunderstorms with hailstorms, localized downpours and strong winds are probable in some areas. Mild conditions are expected overnight.
Matabeleland South, Southern parts of Midlands, Masvingo and Southern parts of Manicaland Provinces:	Mostly cloudy and mild in the morning, becoming warm in the afternoon with isolated thunderstorms. Windy and cool conditions are expected towards evening.
Actions to Take:	• **Carry a raincoat where possible.** • **Secure loose infrastructure.** • **When thunder roars it is best to be indoors.** • **Do not shelter under trees during thunderstorms.** • **Stay hydrated by drinking adequate amounts of water.**
