

Weather Report & Forecast

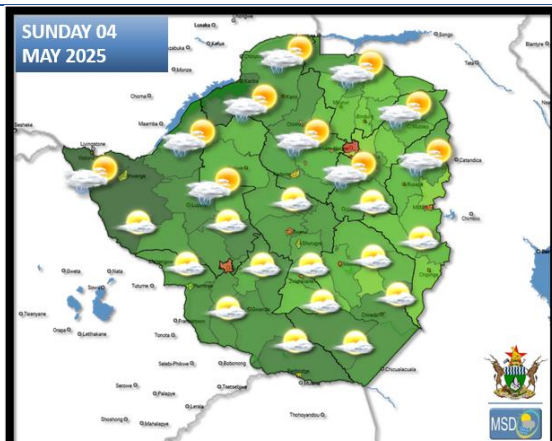

SATELLITE-BASED GLANCE INTO THIS MORNING, SATURDAY 03 MAY 2025

Scattered thunder showers were experienced over much of the country as a result of the moisture that drifted into the country due to the slight pressure rise over the southeast coast of South Africa. Some of the rainfall amounts were recorded in **Nkayi(27mm)**, **Nyanga(17mm)**, **Chibero(16mm)**, **Chisumbanje (8mm)**, and **Victoria Falls(7mm)**, with the remaining areas experiencing rainfall amounts below 5mm. Light rain and drizzle occurred over much of Matabeleland South and Masvingo.

As the pressure weakened overnight, this morning was cloudy and mild across much of the southern, eastern, and northern areas. The western parts of the country had clear skies in the morning. By the afternoon, most areas became partly cloudy and warm, with a gentle breeze at times.

WEATHER FOR TOMORROW: SUNDAY 04 MAY 2025,

All Mashonaland, Harare Metropolitan, Matabeleland North, the northern parts of Manicaland and Midlands provinces.

Actions to Take:

Briefly cloudy in the morning, becoming warm in the afternoon with a chance of isolated showers that may be thundery in places. Mild both in the morning and evening.

Seek shelter during thunder and lightning.

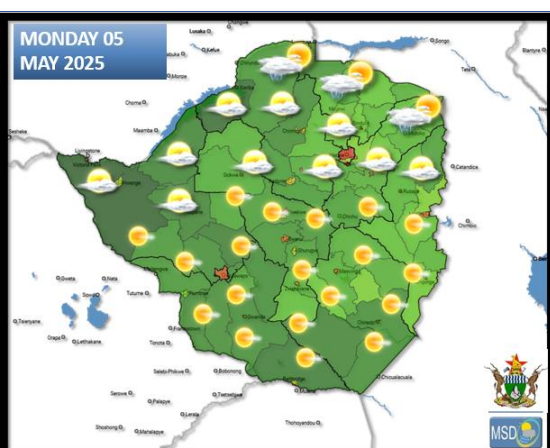

Matabeleland South, Bulawayo Metropolitan, Masvingo, the southern parts of Midlands and Manicaland provinces.

Actions to Take:

Clear skies and mild conditions in the morning transitioning into partly cloudy and warm conditions by the afternoon. Mild during the evening.

Ensure young children, the elderly and those of an ill disposition are kept warm, ESPECIALLY EARLY MORNING
