

10 DAY AGROMET BULLETIN

SUMMARY OF THE PAST DEKAD 01-07-2025 TO 10-07-2025

The weather was mostly sunny across all regions during the reviewed period. Cold mornings resulted in light to moderate ground frost in places like Matopos, Buhera, Henderson, and Gweru, while afternoons were warm in most areas. A south-easterly wind flow prevailed over most regions, driven by a high-pressure system near the south-eastern coast of the subcontinent. Nationwide, evaporation rates remained under 40mm.

10-DAY WEATHER SUMMARY BY PROVINCE FOR THE PERIOD 01-07-2025 TO 10-07-2025

Province	Station	Cc	Gmin	Min/Max Temp. (C)		Relative Humidity range (%)		Rain fall total in 10 days (mm)	Wind direction	Wind speed (knots)	Evaporation (mm)	Sunshine hours

WEATHER OUTLOOK: JULY 2025

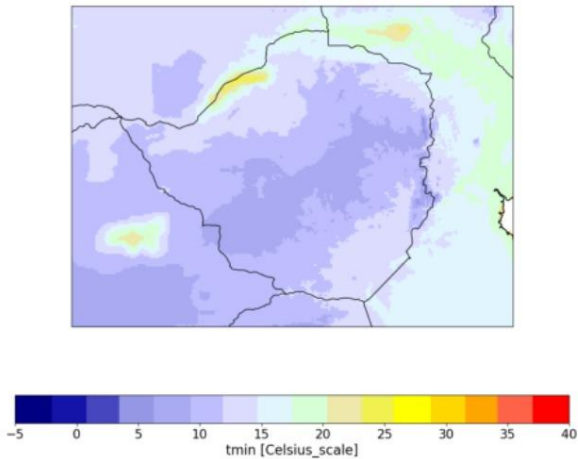

Fig 1: Minimum temperature forecast for July

As shown in Fig. 1 above, minimum temperatures for the month of July are expected to be very low, ranging from 0 to 5 degrees Celsius in areas along the Highveld. Ground frost is probable in these regions. Most parts of the country are expected to have minimum temperatures below 15°C. Mild conditions are anticipated in areas along the Zambezi Valley and the extreme districts of Matabeleland South and Masvingo provinces.

Table 2: Provincial Weather outlook valid from 15-07-2025 to 24-07-2025

Province	Agromet -Weather forecast	Wind Direction & Wind Speed (knots)	Relative Humidity %	Min/Max °C
Mashonaland Central	Mostly sunny and warm for much of the day, with light winds from time to time. Cold both in the morning and overnight. Slight ground frost is probable in all frost prone areas.	NE'ly	60-100	08-27
Mashonaland East	Mostly sunny and warm for much of the day. Cold both in the morning and overnight. Slight ground frost is probable in areas such as Marondera.	NE'ly	60-100	05-25
Mashonaland West	Mostly sunny and warm for much of the day. Cold both in the morning and evening.	NE'ly	60-100	09-27
Harare	Mostly sunny and warm in the afternoon. Cold both in the morning and evening. Ground frost	NE'ly	60-100	08-26

	is probable in all frost prone areas			
Midlands	Mostly sunny and warm for much of the day. Cold both in the morning and evening. Ground frost is probable in areas such as Gweru	SE'ly	60-100	05-24
Manicaland	Partly cloudy and warm afternoons. Clear skies and cold mornings with a chance of slight to moderate ground frost in places like Nyanga.	SE'ly	60-100	05-23
Masvingo	Mostly sunny and warm for much of the day. Cold both in the morning and evening.	SE'ly	60-100	07-25
Matabeleland North	Mostly clear skies and warm for much of the day. Cold both in the morning and evening.	NE'ly	60-100	12-26
Matabeleland South	Mostly sunny and warm for much of the day. Cold both in the morning and evening. Ground frost is probable in areas such as Kezi, Matopos.	SE'ly	60-100	08-23
Bulawayo	Mostly clear skies and warm for much of the day. Cold both in the morning and evening.	SE'ly	60-100	09-26

AGROMET ADVISORY

- Crop Protection: Mulching of sensitive crops such as tomatoes, especially in frost-prone areas. Light irrigation at dawn can help reduce frost damage.
- Livestock Care: Provide windbreaks and warm drinking water for livestock, particularly young or vulnerable animals, during cold mornings and evenings.

- Frost-Prone Areas (Kezi, Matopos): Monitor temperatures closely and prioritize frost-resistant crop varieties where possible.
- Soil & Moisture Management: Retain crop residues and minimize tillage to conserve soil moisture during dry, cold conditions.
