Weather Report & Forecast

SATELLITE-BASED GLANCE INTO THIS MORNING, **MONDAY 14 JULY 2025**

Remnant moisture led to partly cloudy skies in Harare Metropolitan, Manicaland, and Mashonaland Central and East provinces and morning fog in Buhera, Kezi, and Matopos, with cold conditions in most areas. By afternoon, temperatures rose to the mild category under the influence of a northeastly airflow; this also drew in moisture, leading to partly cloudy conditions over much of the country.
