

SATELLITE-BASED GLANCE INTO TODAY, MONDAY 07 SEPTEMBER 2026

Isolated thundershowers were experienced over much of Matabeleland South and Masvingo, as well as the southern parts of the Midlands and Manicaland provinces. This morning, the presence of moisture over the country, coupled with the continued influx of cool, moist south-easterly winds, resulted in cloudy, windy and cool conditions over the southern half of the country, while the northern half experienced partly cloudy conditions. As the day progressed, cloudy conditions persisted over the southern half of the country, while partly cloudy conditions prevailed over the northern areas. Despite the varying cloud conditions, temperatures remained generally warm across the country throughout the day.

FORECAST FOR TOMORROW: TUESDAY 08 SEPTEMBER 2026

Matabeleland South, Masvingo and the southern parts of Manicaland provinces:

Mostly cloudy, windy and cool in the morning becoming mild in the afternoon and cool overnight. Isolated showers that may be thundery are probable.

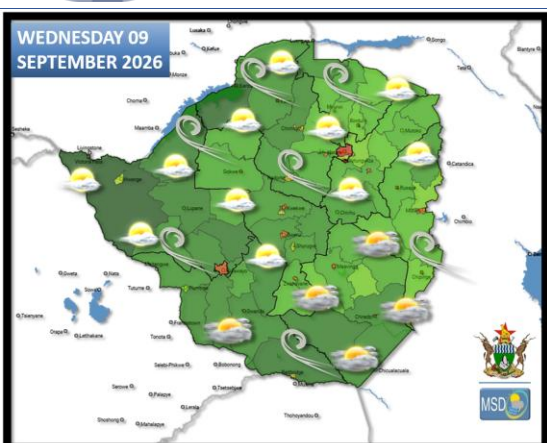

Matabeleland North, Midlands, Bulawayo Metropolitan, Harare Metropolitan, and all Mashonaland provinces:

Partly cloudy and cool in the morning with occasional light winds becoming warm in the afternoon. Cool conditions are expected during the evening.

Actions to Take:

- **Ensure the young and elderly are kept warm especially in the morning and overnight.**

WEATHER OUTLOOK FOR: WEDNESDAY 09 SEPTEMBER 2026

Matabeleland South, Masvingo and the southern parts of Manicaland provinces:

Expect briefly cloudy, windy and cool in the morning becoming partly cloudy and warm in the afternoon. Cool conditions are expected overnight.

Matabeleland North, Midlands, Bulawayo Metropolitan, the northern parts of Manicaland, Harare Metropolitan, and all Mashonaland provinces:

Partly cloudy and cool in the morning becoming warm in the afternoon with occasional light winds. Cool conditions are expected overnight.

Actions to Take:

- **Ensure the young and elderly are kept warm especially in the morning and overnight.**
- **Monitor temperature within fowl runs and adjust accordingly, with advice from your local ABAO.**
